

Sorting Guide for Drink Containers & Food Glass

Apex Waste Transfer Station was not designed to collect drink containers with a deposit, nor to collect glass that held food or sauces. To continue to offer this service:

- 1) **Sort your drink containers correctly** in the provided drink totes - rinsed clean, with labels on.
- 2) **Please read the signage** that is posted on the front of each tote, and take the time to sort correctly.
- 3) **No glass food or sauce containers in drink totes:** place clean food glass without lids in "Food Glass Tote" & place lids in the recycling compactor.
- 4) **No plastic food containers, other household plastic containers or food metal tins in drink totes:**
- place these items (must be clean) in the recycling compactor.
