Subject: Area E Opt In

I am writing to voice my frustration in not being responded to by the Area E director we elected.

I would like to know how a democratically elected director can not respond let alone acknowledge the wishes of the people who elected her.

I appreciate that decisions of this nature are not easy but being stonewalled is not the answer.

I have signed the petition, now at 932 signatures out of the most recent census putting us at a population of 1628 - well past majority.

Ive received replies from planning and bylaw but nothing from Director Fedrigo.

To my knowledge over 30 heartfelt letters have been written- not a single reply - even a formulaic one.

I would like this letter sent to all directors and posted to the public board.

**** this is now urgent as I have just learnt the Opt In choice is tomorrow and I would like the RDOS directors to be aware of my frustrations for tomorrow's meeting.

Thank you
Kathi Prosser
