

INFORMATION BULLETIN

MISSEZULA LAKE WATER SYSTEM

RESCINDED - WATER QUALITY ADVISORY (TURBIDITY)

September 13, 2023

The turbidity at the Missezula Lake water system intake has decreased below 1 NTU to a “Good” rating. In consultation with the Interior Health Authority, the Regional District of Okanagan-Similkameen is **rescinding** the **Water Quality Advisory** for turbidity, effective immediately, for the entire Missezula Lake water system.

The turbidity index’s ratings and levels of Public Notification are as follows:

- Good** (<1 NTU) – No Public Notification required.
- Fair** (1-5 NTU) – A **Water Quality Advisory** is required.
- Poor** (>5 NTU) – A **Boil Water Notice** is required.

For further information, please contact RDOS Utilities at 250-490-4106 or 250-490-4135.

For after-hours water related emergencies, please call Regional Dispatch at 250-490-4141.

Thank you for your cooperation.
