

Proposed Temporary Use:

- housing for temporary farm labourers.
- land use will be agricultural
- land is leased to Wildharvest Inc. dba. Sagebrush Nursery for the growing of native shrubs, perennials and trees. Area is roughly 4 acres. The remainder is personal gardens and living areas.
- I'm in need of reliable full time labourers. Housing is hard to secure to help with receiving an accepted application. Having a temporary worker residence will help my business meet its goals.
- the TU will have access to island road where a driveway already exists. The placement of the trailer is grouped with other farm buildings in an area that hasn't been very fertile. Very sandy.
