**Smoke Alarms 9.10.19. Location of Smoke Alarms**  
 Within dwelling units, sufficient smoke alarms shall be installed so that there is a least one smoke alarm on each storey, including basements, and a smoke alarm is installed in each sleeping room, and in a location between the sleeping rooms and the remainder of the storey, and if the sleeping rooms are served by a hallway, the smoke alarm shall be located in the hallway. To be interconnected, hard wired and c/w battery backup. Manual device to silence alarm not more than 10min. and will reset; instructions for maintenance and care of smoke alarms to be posted in a location readily available to occupants for reference.
