To Whom it May Concern;

I Bob Reichert (ROWP planner and installer) inspected:

244 River Rd, Tulameen, BC Lot 3 Plan KAP29020 District Lot 1020 Land District 59, PID 004-418-875

To assess if a septic system can be installed for camp trailer sites with a toilet and shower block.

I have identified a suitable location for a septic system that meets all horizontal setbacks. It has suitable soil conditions and has 1 meter plus vertical separations from seasonal high water mark.
