Good afternoon Shannon,

Thanks for the opportunity to provide comments related to the above noted Temporary Use Permit referral.

Our comments are being provided from a healthy community development and environmental public health perspective.

Health and Safety Risk of Residential Use of RVs:

It is important to understand that RVs are designed to accommodate people while pursuing short duration recreational activities (e.g. camping), and do not meet quality standards for living-in longer-term. The <u>TNRD info sheet about RV dwelling</u> explains this difference. RVs pose significant safety hazards. The more time a person spends in the RV environment the higher the chances of being exposed to a hazard(s), which significantly increases the risk of harm or poor health outcome. The following are examples of potential hazards associated with RVs:

- Gastro-intestinal illness due to unsafe drinking water, improper/inadequate (warm) food storage, or crosscontamination from touching sewage/wastewater on the ground or while servicing holding tanks;
- Burns, physical trauma or death from fire and carbon monoxide and propane poisoning, especially while using heating, electrical and cooking appliances;
- Mental health impacts or physical trauma or death from exposure to extreme heat or cold.

Mitigating Health and Safety Risks:

We strongly encourage the RDOS and families considering using an RV as a housing option to take actions to mitigate all risks; that is, reduce these hazards and the likelihood they could occur. For examples:

- Providing information/being aware of the hazards;
- Creating/routinely using a safety checklist to ensure all systems are operating properly, such as electrical, heating/cooling and propane systems; and
- Creating a condition of permit/regularly testing the RV unit has two operable emergency exists, and fire, carbon monoxide and propane gas monitors.

The following resources may be useful:

- On the road again: Keeping your RV safe by Technical Safety BC
- Recreational Vehicle (RV) Fire Safety Guidelines by City of Windsor, Ontario Fire & Rescue Services

Client and Tourist Use of the Accessory Dwelling:

Regarding the tourist accommodation use is conducted within an existing accessory dwelling on the property, and provides for overnight stays for clients of the applicant's business as well as non-business related short-term accommodation guests (including the hot tub), we recommend that the RDOS request the client provide confirmation

that all *Public Health Act and Regulations* have been met related to this commercial operation prior to approving this application.

The local Environmental Health Officer can be contacted at the Penticton Health Protection Office.

Interior Health strongly encourages connection to community water and sanitary sewer systems; however, onsite services may be possible if regulatory requirements can be met. In this case, in relation to the drinking water supplied to the accessory dwelling for domestic purposes and the use of the hot tub by clients of the business the following legislation may directly apply:

- Drinking Water Protection Act and <u>Drinking Water Protection Regulation</u>
- Pool Regulations

More information about drinking water and pool requirements and processes can be found on the <u>Environmental</u> Health & Hazards | Interior Health.

We are committed to collaborating with the RDOS to support healthy community planning. If you have any questions, comments or require more resources please feel free to contact me directly at this email address.

feedback for 137 Saddlehorn permit

Attachments:

FeedbackForm-137 Saddlehorn.pdf

Some people who received this message don't often get email from c.

why this is important

Hello,

I have attached our feedback form for the temporary permit at 137 Saddlehorn. We do not support this application.

Thank you,

Christopher & Jennifer Mark

My wife and I are NOT in favor of a temporary use permit at 137 Saddlehorn Drive. We have come to this position due to:

1. The submission states the cottage is not being used as a short term rental. This is false, as we have seen (and other neighbours have seen) all kinds

of vehicles and guests staying there. This is clearly used regularly for random AirBnB-type guests, not friends and family. And you can see all the

available times at graystarfarms.com/vacation-rentals.com as well as on google and instagram, Facebook, AirBNB, Okanagan-local, (unless they've

now removed it). The cottage is used continuously year round for rentals, and is clearly not mostly used by family and equine guests as is stated in their

application.

2. They have their foster son is living year-round in a small trailer which is not good for the individual nor the property use. We were told a septic field

was dug without proper permitting and did not receive Interior Health inspection & approval. This puts local wells at risk.

3. The main house and cottage have plenty of rooms and there is ample space for the foster son to stay in either the guest cottage or the main house.

There are currently only two adults living at the main house, so not having use of the RV would not displace the son as suggested in their application,

as there are plenty of accommodations on the property to house him. Again, the application is not being honest about the situation.

4. There is an additional issue in respect of access. Currently 137 Saddlehorn uses a private easement which 137 Saddlehorn does not have a legal

right to use. In the past, neighbors who own the easement have in general been accommodating of this, but due to the very high level of traffic to and

from 137 Saddlehorn, this has created unhappy neighbors. I understand that legal access to 137 Saddlehorn is actually from Saddlehorn drive, near

White Lake Road, and not the private access road they are currently using. This access is not currently paved or maintained and again is already

causing problems for other neighbours as is.

5. We, as part of the Saddlehorn community, are not in favor of RVs being used as dwellings, on either a temporary or permanent basis, and firmly

oppose them (other than for approved occasional use).

After much consideration, my husband and I have decided that we are NOT in favor of a temporary use permit at 137 Saddlehorn Drive, for the following

reasons:

1. After reviewing the temporary use submission, we note they state the cottage is not being used as a short term rental. This is untrue, and you can see their

multiple advertisements for rentals under their site: graystarfarms.com/vacation-rentals.comm, as well as on google and instagram, Facebook, AirBNB,

Okanagan-local, etc. In, fact, in their advertisement, it is described as "year round vacation cottage rentals". The cottage is used continuously year round for

rentals, as the closest neighbors can confirm by the number of different cars constantly parked at the cottage, and is clearly not mostly used by family, friends

and equine guests as is stated in their application.

2. The foster son is living year-round in a small trailer, which we disagree with, both for the individual's well being as well as for the property use. We

understand a septic field was dug, & we are concerned that it did not receive Interior Health inspection & approval. This puts local wells at risk.

3. The main house has 3 bedrooms and the guest cottage has 2 additional bedrooms, so there is plenty of room for the foster son to stay in either the guest

cottage or the main house. There are currently only two adults living at the main house, so not having use of the RV would not displace the son as suggested

in their application, as there are plenty of accommodations on the property to house him.

4. There is an additional issue in respect of access. Currently 137 Saddlehorn uses a private easement which 137 Saddlehorn does not have a legal right to

use. In the past, neighbors who own the easement have in general been accommodating of this, but due to the very high level of traffic to and from 137

Saddlehorn, this has created unhappy neighbors. I understand that legal access to 137 Saddlehorn is actually from Saddlehorn drive, near White Lake

Road, and not the private access road they are currently using.

5. We are also concerned that the owners may not sell the property this spring, due to current legal proceedings, and if a temporary use permit is granted,

this could drag the use of the RV and rental cottage out for years to come.

6. We, as part of the Saddlehorn community, are not in favor of RVs being used as dwellings, on either a temporary or permanent basis, and firmly oppose

them (other than for approved occasional use).

FW: TUP Application 12023.032

From: Tamara Semple

Sent: March 11, 2024 10:14 AM

To: Shannon Duong <sduong@rdos.bc.ca>; Subrina Monteith <smonteith@rdos.bc.ca>

Subject: TUP Application 12023.032

Hello Shannon,

We are following up on the TUP application 12023.032 from our neighbours at 137 Saddlehorn Dr. We are increasingly frustrated with the time this is taking to get this addressed. As you know they do not have their own legal access. They and their short term rental guests continue to use our legal access and that of our neighbours at 143 to access the property of 137 **every day**.

We were frustrated to hear that they had until the end of April to submit everything for their application as it was our understanding that they had 3 months from submitting an application to do so. We made our initial complaint in the summer of 2023 and they submitted their application at the end of October 2023. Since then they have been permitted to continue operating, and accept new bookings for future dates which ensures the continual misuse of our property to run their short term rental.

We were hopeful that they were acting in some good faith when we saw that they had blocked off the ability for guests to book from June onwards. We see now that bookings are open for the summer and beyond despite the fact that this issue is not resolved and has not even been addressed by the RDOS at all.

As property owners and tax payers in the RDOS we are angry and frustrated that our property rights are being infringed upon every single day and the RDOS is permitting it. By allowing this to be delayed and by allowing new bookings to be made you are allowing the continual misuse of our property and the property of our neighbours at 143 Saddlehorn Dr. who we share the legal access and therefore the liability of its use with.

Tamara Semple and Dennis Wiren

Responses to Claims on Supplementary Information for application I2023.032-TUP at 137 Saddlehorn Dr.

The applicants inadequately explain the nature and use of their air bnb property in their supplementary information. They continually refer to their business as seasonal and indicate that the use of the air bnb has limited short term rental availability. As the closest neighbors we can confirm that the air bnb is almost always rented to air bnb clients.

They do not have their own legal access as they claim. They and their guests use our legal access and the legal access of our neighbors at 143 Saddlehorn Dr. The legal access of 137 Saddlehorn Dr. has never been developed. Our legal access does have an easement on it which they have the right of ingress and egress WITHOUT vehicle on, meaning they can walk across it.

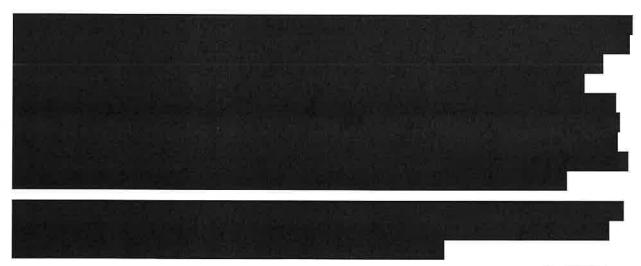

Their use of the easement is misused and taken advantage of.

We have asked multiple times that their business happens on their property to no avail.

There have been multiple requests which have all been ignored.

We were not in conflict until it was purchased by Gray and MacLellan and a business began that continued to grow over the last two years resulting in multiple people on our property daily without our consent. They also indicate that we did not have any issue with the previous owner's air bnb. This is true because they did not permit guests to access any area outside of the land the cottage is on, and it was rented infrequently.

They also indicate that the road access is shared and that that the easement is between 141 Saddlehorn Dr. Please note that the road access is NOT shared. It is OUR legal access and the legal access of 143. The easement is not a piece of land between our properties but is ON OUR property. It is our land, our property to use as we choose.

Granting this TUP will be granting them permission to run their business on our property

we do not allow vehicle access on the easement as they do not have the right to it as they previously insisted.

I am not against air bnb's but this one is not self-contained and relies on the use of neighboring properties who are negatively impacted. It infringes on our right to privacy as property owners and results in the loss of enjoyment of our property.

Att Shannon: Subject: Temporary Use Permit #12023.032-TUP

I have been trying to send this letter via e-mail, but it keeps being rejected so I am trying an attachment.

My name is Dan Esau. My wife and I live at Saddlehorn dr. We are writing in response to the RDOS letter

dated April 24, 2024 asking for input.

My wife and I DO NOT SUPPORT the application for the temporary use permit. The only access to the subject property is totally on the property jointly owned by my neighbour at 141 Saddlehorn Dr. and myself at 143 Saddlehorn Dr. The potential for liability issues is more than I want to accept responsibility for.

There is access allowed for a driveway directly from Saddlehorn Dr. to the subject property. If this driveway were to be constructed, the problem would be solved.

Sincerely,

Dan & Shirley Esau
