22.2 KENNEDY LAKE COMPREHENSIVE DEVELOPMENT ZONE (CD6)

22.2.1 Purpose

The purpose of the Kennedy Lake Comprehensive Development (CD6) Zone is to create comprehensive, site-specific land use regulations for the parcel — hereinafter referred to as “Kennedy Lake” — located at 1916 Kennedy Lake Road (legally described as District Lot 889, Yale Division of Yale District) in order to bring the use of the property into compliance with the Official Community Plan Bylaw and Zoning Bylaw.

22.2.2 Location

The property is situated approximately 20 km south of the Town of Princeton and is situated west of Highway 3, approximately 2,000 metres to the west of the mining operation at Copper Mountain.

22.2.3 Kennedy Lake Recreational Use Areas

A plan that identifies the Kennedy Lake Recreational Use Areas is included at Schedule ‘4’ to this Bylaw, and forms part of this Bylaw.

22.2.4 Background:

Use of Kennedy Lake for commercial recreation purposes originated in the late 1960’s with the establishment of a campground adjacent to the water body of the same name, which predated the introduction of zoning to Electoral Area “H” in 1974.

With the introduction of zoning, an approximately 16.8 hectare (ha) part of Kennedy Lake encompassing the campground use and accessory dwelling was zoned commercial. This

commercial zoning would be carried forward over a number of land use bylaw reviews undertaken by the Regional District between 1974 and 1997.

In 1982, an application seeking to rezone the whole of the Kennedy Lake property to residential was submitted to the Regional District. This proposal was ultimately abandoned by the property owner, with a similar proposal submitted in 1985 refused by the Regional District Board.

Completion of the Coquihalla Highway in 1986 significantly altered traffic volumes along Highway 3, resulting in reduced commercial traffic to the campground operation. To compensate for this loss of business, the property owner increasingly leased individual parts of the property to interested lessees on an annual basis (under the *Land Title Act*, leases greater than 3 years in length trigger the requirement for subdivision). Consequently, what had been only a few small cabins and permanently parked travel trailers expanded in numbers and extent beyond the 16.8 ha area zoned for commercial uses in 1974, and without due regard for the density regulations contained within the current Zoning Bylaws.

In 2005, the Board approved a rezoning of part of the property to “resort” in order to formalise a mix of recreational vehicles and cabins totaling 132 units. The new zoning contained a provision for an additional 10% expansion (145 units).

By 2013, these numbers had increased to approximately 300 units and the Regional District Board initiated legal action to obtain an injunction ceasing further development of the property. This action was successful and led to the consideration of new zoning to be applied to the property.
